

Will County Health Department

H1N1 Vaccination Clinic Schedule

The Will County Health Department (WCHD) has received an initial supply of the H1N1 flu vaccine and will begin dispensing this medication through a series of community vaccination clinics. The vaccine will be administered **free of charge** to people who live and work in Will County.

Because of the limited nationwide supply of H1N1 flu vaccine, WCHD recommends this vaccine to certain priority groups:

- Pregnant women;
- Anyone who cares for children younger than 6 months of age;
- Young people between the age of 6 months and 24 years of age;
- People younger than 64 years of age with chronic medical conditions such as asthma, diabetes, or heart disease.

People who are not part of this priority group do not need to receive the H1N1 vaccine at this time. However, everyone who wants to receive the vaccine will have the opportunity to do so as an adequate supply becomes available.

October/November
